

Why We Are Writing

This year, Indiana lawmakers have introduced a record number of bills targeting LGBTQ people in Indiana for unfair discrimination. Most prominently, HB1608 would prevent teachers and students in K-3 from even mentioning LGBTQ people in the classroom and would target transgender youth (and anyone who doesn't conform to standard gender expectations) for forced outing by teachers. SB480 would completely ban lifesaving healthcare options for transgender youth.

Feel free to use the language below as a model to write your own.

Speaker Huston,

My name is Sylvia Rivera, and I'm a resident of Indiana. I'm writing to ask you to please oppose the hateful anti-LGBTQ bills that are being proposed.

I want all people to feel safe and welcomed in Indiana, and these bills send exactly the opposite message to many vulnerable children. All kids deserve to be fully welcomed in their schools.

For that reason, please vote "no" on overturning the veto. Thank you for your time.

*Sincerely,
Sylvia Rivera*

Another Sample Letter

Senator Bray,

My name is Harvey Milk and I'm a lifelong Hoosier who cares about the wellbeing of LGBTQ youth. I'm writing to ask that you oppose the bills moving in Indiana that target LGBTQ youth in schools for harassment and that cruelly strip parents of their right to make private medical decisions about their family with their doctors.

I've been following these bills and have seen how misinformation, conspiracy theories, and out-of-state personalities are driving this effort. I'm asking you to listen to the real Hoosiers who are speaking out.

The evidence is clear, bans like these will cost lives and do nothing to improve our state.

I appreciate the time you took to read my letter. Please support real Hoosiers and oppose these bills.

*Sincerely,
Harvey Milk*
